

Communicable / Infectious Diseases

MSAD 52 teachers shall be alert to signs of illness and communicable disease and shall refer students who show such symptoms to the school nurse.

All students under quarantine shall be excluded from school and school activities. Quarantine regulations established by the Bureau of Health shall be observed. The school nurse shall be responsible for notifying the local health department of all students having a communicable disease as required by law and Department of Education rules. The building principal shall be notified of all communicable disease cases and contacts in the school.

Students who have other types of communicable diseases shall be excluded from school as prescribed by law or shall observe other protective procedures according to recommendations issued by the school physician.

Students returning to school after having symptoms of a communicable disease should be symptom free for 24 hours. Symptoms include (but are not limited to): vomiting, diarrhea, fever of 99.6 or higher, persistent cough, or other symptoms as outlined by the Maine Center for Disease Control.

When a student returns to school after being diagnosed with a communicable disease, a certificate from the attending physician is required. The building principal and/or the school nurse must give permission before the student is readmitted to class.
